THE FLORENCE NIGHTINGALE OF THE

NURSERY. The following is an extract from a letter written by the Rev. C. Z. Wieser, to the "German Reformed Messenger," at Cham

bersburg, Penn.

A BENEFACTRESS.

"There is a woman in the public eye, whose name had all along been associated, in our mind, with the 'Yankee,' 'Quack,' and 'Humbug.' But it is so no longer, and we desire to wrest her name from all such suspicions association in all other minds Whatever notions we may have of womanly delicacy and propriety, we will admit that woman alone is the Nurse—the soon Nurse-the BEST Nurse. Whether we shall have female physicians or not is a question which must be decided by time and principle, and not as a matter of taste. Pride, projudice. caprice, and custom may as well behave themselves, for if there is really a want there will also be a supply-if there be a calling, there will be a a 'coming.' Nature and Human Society are always self-supplying, and though Art and Fashion may hinder,

" Mrs. Winslow does not want to treat you, gentlemen! nor does she prescribe a regimen for your wives; but modestly ap pears as a messenger of health and happiness to your invants in the cradle. Is there anything improper in that? A nurse of "ten years" experience can boldly say what is or is not good for a habe—and ought to be listened to. God speed her on her humble but happy mission. She is the most successful benefactresour little one ever enjoyed-her doting parents not excepted. Just open the door for her, and Mrs. Winslow will prove the American Fierence Nightingale of the nursery. Of this we are so sure, that we will teach out 'Susy' to say, 'A BLESSING ON MRS. Winslow,' for helping her to survive and escape the griping, collicing, and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it pro-fesses to perform—every part of it, nothing less. Away with your 'Cordisl,' 'Paregoric,' 'Drops,' 'Laudanum,' and every other narcetic, by which the babe is drugged into stupidity, ren'

"We have never seen Mrs. Winslow-know her only through the preparation of her 'SOOTHING SYRUP FOR CHIL-DREN TEETHING.' If we had the power we would make her, as she is, a physical savior to the infant race."

HIGHLY IMPORTANT (TO MOTHERS.-MRS. WINS. LOW'S SOOTHING SYRUP is the only thing that you can rely upon to give rest to yourself, and relief and help to your infant. MRS. WINSLOWS SOOTHING SYRUP has been the neans of restoring the drooping spirits of many mothers.

This is the season of the year to use MRS. WINSLOW'S SOOTHING SYRUP.

To every mother who has children suffering from any of the emplaints incident to this period of teething, we say do not let your own prejudices, or the prejudices of others, stand in the way of the relief that will be sure-yes, absolutely sure to follow the use of MRS. WINSLOW'S SOOTHING SYRUP.

Druggists everywhere now keep MRS. WINSLOW'S SOOTHING SYRUP for children teething. No medicine in the United States sells like it. It is a standard medicine, and its fame world-wide. Physicians order and use it wherever its magical effects have been witnessed.

During the thirty years of unprecedented and increasing popuortty of MRS. WINSLOW'S SOOTHING SYRUP, innum able "Condials" and other nostrams, prepared by pretended M. D.'s, have sprung up and lived but a mushroom existence. while the SOOTHING SYRUP has been constantly increasing in popularity, and become a household word, and thousands of mothers thank Mrs. Winslow for the health of their children by the use of her invaluable article. When the present race of "Cordials" have followed in the

foctsteps of their "fillustrious predecessors," MRS. WINSLOW'S SOOTHING SYRUP will continue to be a popular favorite and a blessing to every mother. None genuine unless the fac-simile of CURTIS & PERKINS

M.

Transactions at the Morning Board were remarkably

light, and the first call was completed without a sale in five or six of the leading railways an event which rarely happens at our Stock Exchange. Prices were quite firm throughout, and on the second call the market stiffened up a little-the shorts buying to a moderate extent, and one or two of the leading operators coming in to the rescue, apparently with a desire to take the market out of the alough of despond into which it has appeared to be rapidly settling. At this point an abstract of the foreign news by the Arago was given to the Board, and the effect was for the time to unsettles little the price of Illinois Central, which was quoted lower in London. The market closed steady, however, at the adjournment, for nearly all of the prominent shares, and immediately afterward there was a very good demand for stocks at an advance of from i to i & cent over the registered sales of the morning. The Federal loan of 1881 was a fraction lower, and rather less active. State stocks were a little better, with a moderate business, and for Railway bonds, which seem to be the favorite security for investment, there was a very welldistributed and active demand at higher prices. The dealings were not large, however, in consequence of the limited supply, and the indisposition of holders to meet the views of buyers. Michigan Southern Sinking Funds advanced to 84, and Teledo Sinking Funds to 734, both descriptions closing in demand. At the Second Board the feel ing was decidedly better throughout, and the share dealings were larger and more an mated. The leading stocks were from 1 to 1 P cent higher, and the bids for Radway Bonds were at a further advance. No particular reason is given for the change in the tone of the market. There was not much doing after the Board, but the market was firm. The closing prices were: Tennessee State 6s, 741 275; Virginia State 6s, 781 279; Missonri State 6s, 65; 2:66;; Canton Company, 14; 2: 15; Cumberland Coal Company, 6:28; Pacific Mail Steamship Co., 861 @ 861; New-York Central Railroad, 781 @781; Erie Railroad, 311 @32; Hudson River Railroad, 45@454; Harlem Railroad, 154@16; Harlem Railrond Preferred, 39 & 394; Reading Railroad, 434 & 44; Michigan Central Railroad, 57 a 574; Michigan Southern and Northern Indiana Railroad, 164 & 164; Michigan Southern and Northern Indiana Railroad Guaranteed Stock, 37 | @ 37 |; Panama Railroad, 116 | @ 1174; Illinois Central Railroad, 811 282; Galena and Chicago Railroad, 721 2721; Cleveland and Toledo Railroad, 3.-1@354: Chicago and Rock Island Railroad, 58; 258; Chicago, Burlington and Quincy Railroad

The Money market continues to show increasing supply, yielding rates of interest, and greater difficulties in the employment of capital. The prospects are that the plethora will presently fully equal, if not exceed, that which followed the crisis and contraction of 1857. Dispatches from Washington this afternoon announce that the Secretary will advertise forthwith for the eight million loan. Some of the successful bidders of the last loan urge that it would be a simple act of justice to complete the deliveries of that loan before taking the field for a new one. Negotiations have been very much embarrassed by the delay.

The New-Orleans bank statement shows the following changes:

The movement of the banks in the four principal cities of the Union, in which weekly reports are made,

as shown by their last statements, is as follows: Total \$224,000,451 \$146 426 024 \$64,807.574 \$25,535,500

The financial news by the Arago is more favorable.

Rates of discount in the open market are slightly under the Bank rate, and at the Stock Exchange short loans were made at from 5 to 7 ? cent. The Cotton market was very active, at an advance of id. P Ib. Breadstuffs are firmer. Consols are quoted at 917 2917 for money. The Bank of St. Petersburg had reduced its rate to 64 and 7 P cent.

 Newsylaforce carehors in the bistory of the Newsylafor.

Never before, perhaps, in the history of this country has such a feeling of uncertainty, of alternate hope and fear, prevailed in the business community. The elements of great commercial prosperity exist in such palpable form, that the mere novice in business matters may place his finger on the points; and yet, with all this mine of wealth, to the man of trade plainly in sight, not one-not even the most sagarious and enterprising-dares to take a step toward securing a share of The importer-looking simply to the wants of the country, to the ordinary laws of supply and demandsees a harvest of profits in the future, if these laws are allowed to rule, but hesitates when the cry of disunion and civil war threatens him with rude interference. The manufacturer, with the assurance of a good home trade, and a remunerative business, even under the old tariff, if the country can be pacified, and a still bettter prospect under the new, feels inclined to put every loom in motion and to tax his every ingenuity in pattern and fabric, but halts and besitates as the din of revolution meets his ears. Thus in every branch of business the story is the same -the disposition is to move onward with the natural flow of the tide, but it is checked and chilled by vague apprehensions, which find no relief as yet. This state of suspense is perhaps the severest trial to which a business man can be subjected. He knows not whether to contract or expand; to take eredit, or to give it; to buy, or to selk to continue manufactures, to stop; to build ships, to cut lumber, or to mine. Enterprise, everywhere ready to leap into activity, halts at the verge of a chasm which seems to open be fore it. It would be a relief to know what is in store for us, that business men may shape their operations accordingly.

the money and exchange market of that cay;

There was rather more activity in the Money market to day;
but the demand for currency is still far below the views of the
bankers. Sixty-day paper with first-class names has been
gadly taken by bankers at 16 \$\phi\$ cent but their vaults are still
packed with currency. The small movement of paper is therefore cheerfully met, bankers being disposed to cachange their
banks notes for paper with substantial names stached. Although
the weather has been cold for the past few days, an early opening a confidentify a needed. the weather has been cold for the past few days, an early opening is confidently expected.

Exchange, to-day, has been decidedly flat. It opened at 6 P cent, but in the alternoon bankers were glad to find consensers at 54 fiftig — the latter for round lots. The impression gains ground daily that the decine must be steady and rapid, and bankers are anxious to draw down balances to the lowest possible limit. The buying price for the day has been 5 P cent, and I additional may have been past by some to supply immediately to customers. Any considerable amounts would have borne down the market to 44.

The New-Orleans Picayune of Murch 12 says:

The New-Orleans Picayane of March 12 says:

The money market progresses quietly, and if anything is working toward greater case for unexceptionable security. As before
remarked, there is very little preferred long paper offering, and it
sells readily at leaft 19 count. Other good signatures go of at 12,
and secondary class slowly at 15. The banks are discounting Fair
paper to a moderate extent.

Foreign Exchange took a further leap upward to day, under
the persuasion that the offerings will show a lalling off next week.

CITY ITEMS.

MUSICAL,-The Brooklyn Philharmonic Society will give its fourth concert this evening at the Academy o Music, in Remeenstreet. The vocal performances will be by Miss Carlotta Patti and Madame Strakoech, and Mr. Robert Goldbeck will also assist at the Piano Forte. The rehearsal will take place at 10 o'clock this

Yesterday Mr. Salter gave his fourth matinee at Dodworth's Rooms, where be, as usual, surrounded himself with the beauty and fashion—that is believed to be the phrase-of New-York. The astonishing power and generally thunderous manner of the pianist were dis-played in Nicolai's overture, "Many Wives of Windsor," and his own effective fantasis on " La Juive." A sonata of Beethoven, a leash of three musical wifles, by home composers, and the jingling waltz called the "New-York Belles," by request of a lady, completed the programme, and returned the beauty and fashion in good bumor to the sloppy streets.

BENEFIT AT WALLACK'S .- The annual benefit of L. Bardon and Son, the well-known doorkeepers at Wallack's Theater, comes off to-right. The ever popular comedy of "Everybody's Friend" and the far "Tom Noddy's Secret" will be played, the entire company participating. The beneficiaries are worthy of and will doubtless have a crowded house.

EXHIBITION OF THE METROPOLITAN GYMNASIUM .-The annual exhibition of Messrs. Gooderson & Wood's gymnasium, which is located in Sixth avenue, opposite Eighth street, came off on Monday and Wednes-day evenings, 18th and 20th inst. The hall was crowded on both occasions with a large and select and of which nearly one-half were ladies. A fine band of music and an excellent glee club added greatly to the entertainment. The class exercises were executed in first-rate style, the efforts of the young men composing them eliciting frequent and deserved applause. The following programme was offered during the evening: Parallel bars, double trapeze, ladders, flying rings, barrel and tranca, inclined and peg pole, acrobatic groupings and feats, fencing with foil and broad-sword, stilte, dumb-bells, Indian clubs, magic ladders, double rings, single bar, spring-board and vaulting, posturing and tumbling, etc. The ball was neatly decorated, the colors of several hoat clubs, of which many of the members are subscribers to the gymnesium, forming a conspicuous portion of the bunting of the room.

CROTON WATER STOCK .- The Controller has sent to Albany the memorial which the Common Council directed the Corporation Counsel to draw up, for authority to issue Croten Stock to the amount of \$864,778. This will be needed for finishing the new reservoir, for work at the High Bridge, for laying a five-foot main through Manhattan Valley, for laying ax large mains through Central Park from the new reservoir to Fifth avenue, and for some other improvements. These mains will be laid in Central Park, so that hereafter the ground will not have to be disturbed for laying others. If the Legislature neglects to act on the memorial, the work cannot go on, and the city will continue to be restricted to its present inadequate supply of water. The case is the more urgent, as the Croton pipes are at any moment liable to an accident such as occurred in December, when, if a conflagration should break forth, it might be difficult to arrest its progress until a large part of the city had been consumed.

A CHASE THAT DIDN'T PROVE BOOTLESS .- A night or two ago, as Officer Duffy, who is detailed at the Metropolitan Hotel, was looking through the halls, he perceived a well-dressed man examining the quality of the boots that were standing outside of the guests doors. Presently the fellow took off his old boots, and in the most deliberate manner proceeded to encase his pedals in a splendid pair of Hessian boots. At this moment the officer made his appearance, when the thief darted through the halls and down the stairways into the street, where, after a smart chase as far as Lafayette Hail, he was captured. An exchange of boots was again effected, and the fellow, who gave his name as Snyder, was locked up in the Fourteenth Ward Station-House. Subsequently he was committed to prison by Justice Brennan, in default of \$300 bail. He good humoredly remarked that it booted but little to him as he had nothing to do.

TWENTY-FIRST WARD REPUBLICANS.-At a regular meeting of the Twenty-first Ward Republican Association, held at their beadquarters, on Monday evening, March 18, the following series of resolutions, offered by Thomas B. Van Boren, were unanimously adopted:

Resolved. That we have full confidence in the wisdom, justice, and patriotism of the present National Administration, and that although we have heard with deep regret of the position in which the gallant band at Fort Sumter has been placed by the which the gallant band at Fort Sumber has been placed by it blunder and crimes of the late Administration, we are out fide that the Government will pursue such a course as will condu-to the peace and preservation and prosperity of the Union. Resolved. That we cordially approve of the firm but peaced policy as amounced in the Imangural of President Lincol which we believe will be indorsed by the great mass of the pe

which we believe a ple of our country.

Resolved That we have yet confidence in the preservation of our Union, and have faith to believe it will abide long after those our Union, and have faith to believe it will abide long after those our Union, and have faith to believe it will abide long after those our Union, and have gone to dishonored graves.

SPENCER KIRBY. Freedom. JOHN W. MARSHALL, Secretary. ORVILLE GARDNER .- The gentlemen who are sup-

porting the Fourth-Ward Reading-Room inform us that Mr. Gardner is suffering from an overtasking of his nervous system, owing to his incessant labors among the wretched and drunken cases in the Fourth Ward. The attack has affected his eyesight and caused sleeplessness and a partial paralysis, but Dr. Willard Parker, on whose advice he is recruiting his system in a quiet place in the country, gives hope that, with rest, he may recover. There is no evidence of insanity, as has been stated. It is earnestly to be hoped that he may resume his labors among the unfortunate and vicious of the city. There will be preaching at Orville Gardner's Fourth-Ward Reading-Room, No. 26 New Bowery, at 7; o'clock, Sunday evening, by the Rev. C. L. Brace. Subject: "Training for the Great Contest of Life." All interested are invited to attend
